Who we are

ALSAMAMAT Industrial Services is a pioneer established company in Mechanical and Electrical Engineering contracting activities. A 100% Saudi based organization formed in 1995 and since then have been recognized as one of the reputable and reliable organizations nationwide. At ALSAMAMAT we work hard in honor of providing a reliable quality services across the nation, while operating from our headquarter in Yanbu Industrial City, KSA and guaranteeing a full-coverage quality services to clients through our Jubail Industrial City's division.

Our services follow well-known international standards to ensure our clients a satisfactory experience. In carrying our work ethics wherever we operate, either at our facilities, client sites, or off-shore ports, and through decads of the specialized services, we are confident to prove that ALSAMAMAT is not only your best engineering solutions provider, we are your best partner in success when it comes to quality, timely solutions, and expertise.

Vision *what we aspire to*

To be recognized as a professional and reliable organization that delivers efficient services to our clients, by contributing to the national growth, provide satisfying careers for our employees, and achieving extraordinary results to ensure customer satisfaction.

VALUES *what we believe in*

Integrity

Honoring our values means choosing courage over comfort, choosing what's right over what is beneficial, and being honest in all business relations.

Quality

Adoption of a suitable quality system is a core value to our mission in offering our clients an excellent experience that meets their expectations. Our reputation is a privilege we hold on with pride.

Safety

We obey by the highest safety standards and procedures to ensure keeping people safe from harm and keeping our environment sustainable.

COVENANTS

Wherever we go and whatever we do, we:

Demonstrate Integrity . Exercise the highest level of professional and ethical behavior.

Build Trust. Making commitments responsibly and we always keep our word. We are candid while building shared understanding.

Deliver. We Set high aspirations, plan responsibly, and honor all commitments.

Learn It, Do It, share It. We always build upon experiences and lessons learned.

Covenants . We aim to nurture a proud legacy.

Services

Valves

Since 1995, ALSAMAMAT understood and crafted its resources to meet our customer's needs. Our valve industrial solutions range from basic recondition and preventive maintenance to complete diagnosis, repair and refurbishment as per international codes. We are proud to perform our services on all types of valves including **Manual, Control, Pressure Safety and Relieve Valves**. Having accreditation to work on valves up to **56 Inch size and 2500 class**.

Our Technology Solutions include:

Stationary Testing Shell, Seat, DBB, Stroke test, etc. Including all mediums

On-line Testing All types of PSVs

Overhauling and Repair

Technical Inspection, Online Lapping, machining, welding, replacement and fabrication of internal damaged parts

Preventive Maintenance

Advanced cleaning including On-line cleaning and repair

Calibration

All brands of Control Valves, Actuators, Pressure Gauges, temperature gauges calibration, vacuum gauges calibration, manifold testing and calibration.

Valve Actuators

Overhauling, and advanced diagnosis, Positioner retrofitting, Pneumatic Testing, Electric Testing, Hydraulic Testing

Motors

As an approved EASA facility, we are proud to provide you with our best electrical solutions on all types of AC Motors including Brushless AC Motors, 3 Phase/Single Phase Motors, Slip Ring Induction Motors, and Explosive Proof Motors. Also, you can always rely on us once it comes to Impeller, Blower and Fan balancing.

Our Technology Solutions include:

Motor Stationary Testing

IR Test, WR Test, PI Test, No load test including precise Current, and Vibration, and Temperature Tests, RPM Verification.

Motor overhauling and Repair

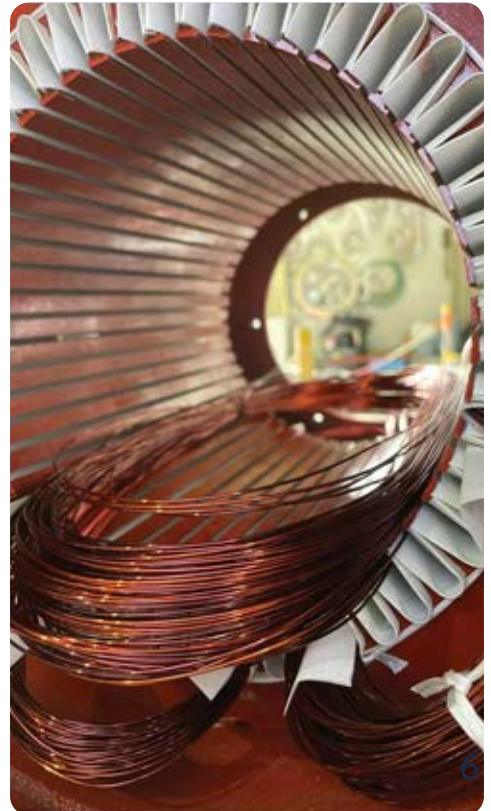

Advanced Technical Inspection, Bearing replacement, Seal and RTD replacement, end cover sleeve machining, shaft repair, vacuum varnishing, Stators recondition.

Motor Rewinding

Motor Balancing

Advanced Dynamic Balancing of Rotors (20-2000 kg) as per ISO 1940 G2.5

Motor Insulation Class F

Services

HEAT TREATMENT

Oil Firing Method

Spherical tank, Thin wall tank, Vertical vessel and Horizontal vessel, Column, Gas transportation Bullets, Refractory Dry-Out.

Electrical Method

Piping, Small vessels, Plates, Flanges and Nozzles, Refractory Dry-Out, String Fitting.

Non Destructive Testing

Ultrasonic Thickness Testing

Dye Penetrant Testing

Hardness Testing

Ferrite Content Testing

Projects Capability

Turnarounds and Complex Shut Downs

Mobile workshops

On-site mobilization of Valve Testing workshop, and Valve Repairing workshop, including Oxygen Valve friendly environment workshop.

Project Management

Other Fields of Services

A large orange crane is lifting a heavy, dark-colored industrial component, possibly a piece of machinery or a large pipe, from a body of water. The crane is positioned on a barge or a similar floating platform. In the background, there are industrial buildings and a cloudy sky. The scene is set in an industrial or construction environment.

Precise Machining Services

Certified Welding

Sandblasting

Industrial Coating
